---

### Objective

To utilize my technical skills for achieving the target and developing the best performance in the organization. I would like to implement my innovative ideas, skills and creativity for accomplishing the projects.

### Summary

- 1 year experience of in the areas of ETL tools, Oracle and PL/SQL based applications using Oracle PL/SQL and SQL Technologies under UNIX Environments.
- Extensive experience in developing **Stored Procedures, Functions, Triggers, Views, Cursors, Packages, Exceptions, Joins, Sub Queries** and **Set Operators**.
- Worked on **remote database** access over database link, **Import-Export utilities**.
- Having knowledge of creating users , granting revoking permission, altering datafiles, tablespaces.
- Having knowledge of designing query with optimal query processing time.
- Trained on **ETL tool** like Informatica PowerCenter, SAS DI and worked in same.
- Have good knowledge of UNIX environment, scripting.
- Sound Knowledge of **Data Warehousing concepts**
- Having knowledge of **query optimization, performance tuning, Hints**.
- Hands on experience using Teradata utilities (SQL, B-TEQ, Fast Load, MultiLoad, FastExport, T pump, Visual Explain, Query man), Teradata parallel support

### Education

#### **B.E. INFORMATION TECHNOLOGY**

(Passed with first class)

Maharashtra Institute of Technology, Pune (2015)

#### **DIPLOMA IN INFORMATION TECHNOLOGY**

(Passed with distinction)

Govt. Polytechnic Kolhapur (2012)

## Work Experience

### PROJECT ENGINEER | WIPRO TECHNOLOGY | JUNE 2015-PRESENT

As Project Engineer awarded with **Spot award** in quarterly performance review. Being fresher was involved in following,

- Interacted with clients to understand their requirements in Implementation of new product as well as maintenance of existing product.
- Worked on **SQL\*Loader** to load data from flat files obtained from various facilities for monthly report generation.
- Developed **PL/SQL triggers** for automatic creation, update in dependent tables.
- Created PL/SQL **stored procedures, functions** and **packages** for moving the data from staging area to data mart.
- Created and modified several UNIX **shellScripts** according to the changing needs of the project and client requirements.
- Designing of Queries, tables in oracle 12C.
- Worked on remote database using database link for creating database object like tables, views, stored procedures / function in other database.
- Involved in some DBA level task such altering tablespace, adding datafiles, creating users, export backup of database and restoration of the same.
- Worked on designing ETL of CRMS.
- Worked on configuration of solution using SAS DI.
- Involved in resolving production problems for the applications and Ensure all support service level agreements are met.
- Involved into Linux Server Installation.

### DEVELOPER | BMC SOFTWARE | AUG 2014-MAY 2015

As developer involved in following,

- Involved in requirement gathering from client.
- Used 'Git' Api's in existing system for controlling versions of bladelogic objects.
- Automated the rollback for patch failure from the remote system.
- Monitored group activities so that project will meet the deadlines.
- Final Project documentation.

## Personal Qualities

- Passion for constant improvement.
- Ability to make sound decisions.
- Highly motivated and eager to learn new things.
- Strong problem solving ability
- Positive thinker.

**Personal Interests:**

Date of Birth	:	20 July 1992
Marital Status	:	Single
Language Known	:	English, Hindi, Marathi
Hobbies	:	Internet Surfing, Listening to music, Playing chess, interacting with people.

**Declaration:**

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
