<b>Lighthouse Systems Pvt. Ltd, Nagpur</b>	Functional Leader	Jan-2010 to Oct-2010
<b>P.S.S.G.Ltd, Yavatmal</b>	Soft. Programmer	Sep-2007 to Jan-2010

**TECHNICAL EXPERIENCE**

<b>JAVA</b>	JDK1.6, Oracle ADF, JSF, Core Java, JDBC
<b>RDBMS</b>	Oracle 9i, 10g
<b>Languages</b>	Java, SQL, PL/SQL, C/ C++, HTML, JavaScript
<b>Frameworks</b>	Oracle ADF, MVC
<b>Application/Web Server</b>	WebLogic 10.3, Tomcat 7.0

<b>Development Tools</b>	Jdeveloper 11g, eclipse 3.0
<b>Reporting Tools</b>	JasperStudio 6.0, iReport 3.7, Compiere, D2K 6i

## **FUNCTIONAL EXPERIENCE**

- GAP Analysis, Scope List & Module wise Documentation.
- Understanding the technical & functional specifications with Documentation.
- Designing, developing, testing, troubleshooting, and debugging of applications.
- Managing smooth implementation of applications at client location by providing post-implementation, enhancement, and maintenance support for applications.

## **PROFESSIONAL EXPERIENCE**

**Employer: Lokmat Media Limited, Nagpur, M.S.**

**Oct-2010 – Till Date**

As a **Sr. Programmer**, was responsible for the development, troubleshooting, debugging & implementation of web based applications, portals etc. for Lokmat Group.

- Using Oracle ADF 11g involving ADF BCs, Task flows, ADF DVT, Weblogic 10.3, Jdeveloper 11g, Oracle database 10g, Jasper Reports & Java.
- Writing stored routines, functions, cursors, triggers etc. while application development, data migration & uniformity etc.
- Basic Installation & Configuration of Weblogic Server in Production Environment with deployment of various applications and necessary libraries.
- Testing the system for business processes as per functional specifications, Debugging, Examining & Troubleshooting implementation issues.
- Guiding programmers on the functional & technical requirements & Co-ordinating with team members for successful project development & implementation within the time frame.

## **PROJECT DETAILS**

### **1. E.R.P. Solution for Lokmat Media Pvt. Limited using Oracle ADF**

**Environment** : Oracle ADF, WebLogic10.3, JSF, JDBC, Jasper Reports, Oracle 10g,  
JDeveloper, iReport, SVN & Windows-XP.

**Description** : It is a migration project from D2K 6i through ADF Redevelopment with Data Migration & Uniformity.

The project objective was to develop a browser-based application using Oracle ADF 11g, Weblogic 10.3 & Oracle 10g as the back-end. The application has Accounts & Finance, Stores, Newsprint, Circulation, Advertisement, Recovery & HR modules.

**Responsibilities:**

- 
- Development & implementation of Stores and Newsprint modules.
  - Creation of ADF BCs, task flows & DVTs for Pivot table, Graphs, Gauges etc.
  - Designing GUI prototype using ADF GUI components and development of various master-detail, search forms, transaction forms using ADF BCs, ADF Faces etc.
  - Development of PL/SQL stored routines, functions for complex business logic as well as Data Migration & Uniformity.
  - Automation of some business processes that helped in saving considerable amount of data entry time, documents movements across the Centres etc.
  - Created managed beans, java beans, classes and methods for managing the business logic & required flow of the application.

## **2. BI Portal for Lokmat Media Limited (Lokmat Group) using Oracle ADF**

**Environment** : Oracle ADF, ADF DVT, WebLogic10.3, JSF, JDBC, Jasper Reports, Oracle

10g, JDeveloper 11g, SVN & Windows-XP.

**Description** : The project involved development of a BI portal intended for the higher management & top officials of Lokmat Group. It has various reports showing graphs, charts, pivot tables etc. based on historical & current business transactions.

### **Responsibilities:**

- Design & development of basic structure of the portal using ADF GUI components, ADF BCs, Task Flows, JSF pages & fragments.
- Extensively used DVT Components to represent the information on the portal.
- Writing stored routines, functions, cursors etc. while application development.
- Development of custom reports with flexibility of choosing any of tables provided, selecting the attributes, adding filters on attributes & lastly grouping & ordering.
- Creation of managed beans, classes & methods for managing the required business logic & flow of the application.

## **3. E.R.P. Solution(Client-Server) for Lokmat Media Pvt. Limited using D2K 6i**

**Environment** : Oracle D2K 6i Forms/Reports, Oracle 10g, SQL, PL/SQL & Windows-XP.

**Description** : There were various stand-alone applications in Lokmat, which were based on Oracle D2k 5 & 6i & were de-centralized.

The project objective was to develop an application which will work commonly across the Group involving Data Migration & Uniformity of various Centres having Accounts & Finance, Stores, Newsprint, Circulation, Advertisement, Recovery & HR modules.

### **Responsibilities:**

- Design & development of various forms & reports as per the requirement.
- Writing stored routines, functions, cursors, triggers etc. while application development, data splitting, migration & uniformity etc.
- Design, development & Automation of business processes by reducing human efforts and FIFO valuation for NewsPrint & Stores Modules.
- Testing & troubleshooting the issues while app. development & implementation.

**Lighthouse Systems Private Limited, Nagpur, M.S.****Jan-2010 – Oct-2010**

As a **Functional Leader** in a **Techno-Functional** role, was responsible for the development, troubleshooting, debugging & implementation of web enabled/Client Server applications for Lighthouse and its Clients.

- Using Oracle database 10g, SQL, PL/SQL & D2K 6i forms & reports for developing Client Server applications.
- Guiding programmers on functional requirements, Co-ordinating with team members for successful project development & implementation within time frame.

**1. E.R.P. Solution for India Carbon Limited, Calcutta**

**Environment:** Lighthouse ERP, Oracle 10g, D2K 6i, Windows<sup>XP</sup>.

**Description:** The project involved Accounts, Stores, Sales & Despatch, Raw Material, Production, Quality Control, Security Gate, Weigh Bridge, Marketing & CRM, and HR modules.

**Responsibilities:**

- Design & development of various forms & reports as per the requirement.
- Writing stored routines, functions, cursors, triggers etc. while development, data migration & uniformity etc.
- Actual mapping of the business processes through design, development and customization for interfacing modules to ensure proper mapping & integration.
- Testing the modules with business processes as per specifications.
- Module wise Documentation, GAP Analysis, Scope List, functional specification etc

**Priyadarshini Sahakari Soot Girni Ltd., Yavatmal, M.S.****Sep-2007 – Jan-2010**

As a **Programmer**, was responsible for the development, troubleshooting, debugging & implementation of Client Server ERP application.

- Using Java, Oracle database 10g, SQL, PL/SQL, Compiere ERP & Jasper Reports

**1. E.R.P. Solution for P.S.S.G. Limited, Yavatmal**

**Environment:** Compiere ERP, Oracle 10g, SQL, PL/SQL, Java, Jasper-iReport, Windows<sup>XP</sup>, OpenSuse 10.2.

**Description:** The project involved Accounts & Budgeting, Raw Material, HR, Quality Mgmt, Packing & Sales, Production Mgmt, Maintenance, Stores & Material Mgmt. modules interfaced with Production Monitoring System, Energy Mgmt System, & Attendance Software.

**Responsibilities:**

- Designing & Developing various Reports using Jasper-iReport & Compiere report.
- Writing Java Callouts, Procedures, Functions & Triggers.
- Interfacing Production Monitoring System, Attendance Software with E.R.P. & importing data from those systems.
- Creation of KPIs, windows, workflows, processes in Compiere.

- 
- Technical as well as Functional Incharge of the E.R.P. Department of P.S.S.G.Ltd.

**VALUE ADDITION**

- A self starter, with zeal for success.
- Take initiative & equally comfortable working independently or as part of a team.
- Good interpersonal skills & willingness to learn new technologies.
